

DRAGONSHIELD ERC (Explosive Resistant Coating)

DRAGONSHIELD ERC (Explosive Resistant Coating)

Description: Dragonshield ERC is a Specialty Products Inc. Polyurea that has been formulated to provide maximum adhesion, durability and protection as an added coating to 3/16 High Hard Steel Armor.

This Product when applied $\frac{3}{4}$ of an inch to 3/16 HH armor's outer surface provides the ballistic protection of 3/8 Rolled Homogenous Armor. Additionally it will save approx 2.5 pounds per square foot.

DRAGONSHIELD ERC (Explosive Resistant Coating)

- Currently a New Equipment Training Team (NETT), trained at Barstow is authorized to apply Dragonshield ERC to 3/16 Armor doors.
- Testing continues at the Nevada Automotive Test Center on application of Dragonshield to complete 3/16 Armor retrofit kits.
- Testing will address vehicle durability with respect to rocker panels, side panels, back panels and back doors.

DRAGONSHIELD ERC (Application Turn Key Systems)
